## Active Transitional Therapy

Active transitional therapy is highly individualized with the goal to maximize functional ability. Core therapies help individuals gain mobility, master activities of daily living and safely explore community access. Rainbow's interdisciplinary team approach provides individuals with the tools they need to reach their goals, while helping to maximize progress.

Individual and group treatment is available in:

Aquatic Therapy	Behavioral Management
Counseling	Occupational Therapy
Physical Therapy	Recreational Therapy
Respiratory Therapy	Speech & Language Pathology
Vocational Therapy	

So families are enabled for success, we offer family education and training.
