

2007 House Bill 4792

May 31, 2007

House Bill 4792 was introduced by Representative Virgil Smith, Jr. on May 17, 2007, to impose government-established price caps on fees charged by health care facilities and professionals that treat and provide rehabilitation for injuries sustained in vehicle crashes covered under the mandatory (and unlimited) personal injury protection provision of Michigan's no fault insurance law. Under current law, health care providers are allowed and required to charge no more than their customary and reasonable amounts for these services.

This bill was referred to the House Insurance Committee on May 17, 2007.
