

Spinal Cord Injury

Dual Diagnosis

Programs offerings...

For more than 20 years, Rainbow has provided quality care and therapeutic rehabilitation services for individuals with complex neuro-rehab diagnoses. We employ a multidisciplinary approach utilizing a team of medical, therapy, mental health and vocational specialists providing the following services for individuals with brain and spinal cord injuries:

- Active transitional therapy – *professionals specializing in TBI & spinal cord injury rehabilitation and support*
- Residential living
- Outpatient and day treatment options
- Patient & family education
- Counseling services
- Vocational therapy and services
- Home modification assessment and coordination services
- Supported living for long-term care

About Active Transitional Therapy

Active transitional therapy is a highly individualized and aggressive treatment, which helps maximize functional abilities. Core therapies, including physical, occupational and recreational therapy, help individuals gain mobility, master activities of daily living and expedite community access. Rainbow's interdisciplinary team approach provides individuals with the tools they need to reach their goals, while helping to maximize progress.
